Career Objectives

“To pursue a highly rewarding career in a dynamic and growth-oriented organization, where I can effectively utilize my technical skills, creativity, and knowledge for both organizational success and personal development.”

Education

Sahyog College of Information Technology ThaneBachelor of Science in Information Technology

June 2024 – July 2027Thane, Maharashtra

Relevant Coursework

- Data Structures
 - Software Methodology
- Algorithms Analysis
 - Database Management
- Artificial Intelligence
 - Internet Technology
- Systems Programming
 - Computer Architecture

Technical Skills

Languages Developer : React js, Next js, Flutter, C/C++, HTML/CSS, JavaScript

Tools : VS Code, VS Studio, Rest API, Google Cloud Platform, Cursor

Technologies/Frameworks : ChatGpt, GitHub, ShadCn V.0

Projects

Disha | Next.js, Groq AI, Gemma, Ollama - View Project

August 2025

- Built Vidya Agent, the backend layer enabling offline mesh sync between student and teacher apps using CRDT and Firebase.
- Led frontend development of the Shikshak web app with React, Tailwind CSS, and ShadCN UI for multi-grade classroom support.
- Contributed to Sahayak, an AI-powered classroom OS designed for rural, low-connectivity education environments.

Attendance Manager | Python, OpenCV, Face Recognition – View Project

February 2025

- Built a face recognition–based attendance management system that automatically marks student attendance in real time using a webcam.
- Implemented student registration with photo datasets, secure local data storage, and real-time attendance tracking.
- Added attendance analytics and reporting features to help educational institutions monitor and manage student presence efficiently.

HealthLock | Next.js, Node.js, AI - View Project

October 2025

- Built HealthLock, a secure medical record management platform giving patients full control over uploading, managing, and sharing health data with verified doctors.
- Implemented time-limited QR-based access, real-time access logs, and notifications to ensure privacy, transparency, and secure data sharing.
- Integrated an AI-powered medical chatbot and predictive health analysis to provide instant guidance and future health risk insights.

Experience

Software Developer Intern at Brainfog Agency LLP

August 2025

Achievements

- Winner – Invento Gamathon 2024 (₹5,000 | Game Development | Team Lead)
- Winner – PEC-Hacks 3.0 International Hackathon, Chennai (₹75,000 + \$100 | App Developer)
- Finalist – Google Cloud Agentic AI Hackathon, Bangalore (Top 10 among 700,000+ participants)
- Winner – College-Level Hackathons (2× | ₹10,000 total prize)
